The Notes described in this Information Memorandum will rank at least equally with the Existing Notes. The Notes will not form part of the same series as the Existing Notes or any new series of notes which may be issued by the Issuer in the future. The Issuer may from time to time, issue:

Catalogue printing and distribution are an important part of PMP's operations. Printed catalogues have proven to be a resilient marketing medium even as other forms of printed material such as magazines and directories have declined in recent years.

The effectiveness of catalogues as a marketing channel is further evidenced by recent Roy Morgan research which confirms 10.4 million Australians (over 14 years) have read a catalogue in the last week and of those 6.5 million have bought from a catalogue in the last 7 days. In addition, the research indicates that catalogues are considered as the first or second most useful media for making a purchasing decision in 54% of categories as measured by Roy Morgan.#

Strategic Direction

The Company's strategy is to become the most efficient integrated printer and distributor in Australasia. The printing and distribution of catalogues in both Australia and New Zealand accounts for the majority

of PMP's EBITDA. Catalogues continue to be a key marketing channel and effective media for driving sales for retailers.

PMP has now successfully completed the major transformation program that started in 2012. The first two of the Company's three strategic priorities have been delivered: cost base reduction and financial risk minimisation. PMP's balance sheet has been substantially improved with net debt at June 2015 reduced to \$16.3 million. PMP continues to focus on its third strategic priority, which is to build a more profitable and sustainable PMP by focusing on its core expertise in print and distribution.

The Company has continued to enhance its competitive strengths. It offers nationwide bundled printing and distribution solutions to its customers, delivering the benefits of the co-location of its print and distribution services and realigned functional workforce. These strengths allow it to offer to its customers competitive, integrated, full service solutions in a timely manner. 7 of the Company's top 15 customers have now taken up the bundled offer of both print and distribution services.

The Company will continue to seek efficiencies through its business improvement program, pursue opportunities to enhance customer responsiveness, and focus on maximising cash generation and returns to shareholders. The Company will also continue to explore attractive acquisition opportunities, should they arise.

Financial overview

PMP returned another solid result for the 2015 financial year ("FY15") with net profit increasing to \$8.0M and net debt reducing to \$16.3 million.

Net profit has more than doubled over the prior year, albeit from a low base, while net debt has reduced by 68% to a new low, a clear indicator of the Company's ability to generate cash. The Company remains on track to meet its forecast of being net debt free in the 2016 financial year. This compares to the Company's net debt level of \$143 million just three years ago.

PMP has made steady progress throughout the year and has continued to deliver on its financial forecasts with EBIT, EBITDA, and net debt all exceeding guidance.

The results for FY15 have been achieved through leveraging PMP's clear competitive strengths, increasing the efficiency of its business and in reducing costs.

Sales at \$811.7 million were down by \$87.5 million on the previous year, of which \$38 million related to lower volumes at Gordon and Gotch. Sales in the core business were down \$49 million, of which \$30 million was due to a print customer buying their own paper, the Company's exit from the directories business and the Company not pursuing the retention of low margin print contracts; and underlying sales were down \$19 million or 3.4%.

Catalogue demand remained steady during the year, despite some fluctuation in pagination and frequency as retailers experimented to determine the most effective balance. Catalogue volumes in Australia were down 5% year-over-year, but after adjusting for the decision not to pursue low margin contracts, the base business volumes were 1% higher. Whilst the heatset market continues to be challenged by structural factors such as excess industry capacity in Australia, there are indications that this situation is gradually improving. For example, pricing appears to have stabilised in Australian heatset printing with no further softening over the second half of FY15.

Volumes in book printing are improving and the industry appears to be finding equilibrium with digital books.

During the year the Company pursued a stringent operational improvement program to enhance the business' capability to meet or exceed customer expectations. As a result production efficiency has improved significantly over the period with the Company's critical manufacturing key performance indicators showing substantial improvement and now at an all-time high. This has resulted in reduced manufacturing costs with, for example, a decrease in waste generated and improved "Delivery In Full On Time" metrics.

These major improvements have been achieved despite some operational uncertainty and cost impact as result of a delay in the signing of two major customer contracts.

Further cost reductions were achieved during the period with efficiency gains leading to a further decrease in headcount, creating \$10 million in cost savings.

The Company's printing and distribution businesses are co-located at all major production sites creating increased efficiency through shared management which creates benefits such as improved communication, reduced transport times and lower freight costs.

PMP is continuing to focus on building a sustainable, customer focused and profitable company by developing and enhancing a winning culture. This involves a major cultural shift to create a customer centric workforce with a total focus in winning business and delivering on promises. The Company recognises that significant shifts in culture take some time to adopt and imbed, but it is clear that employees and unions appreciate the realities of the Company's business environment and appreciate the need for change.

These solid results reflect the continued disciplined execution of the Company's strategy to become the most efficient integrated printer and distributor in Australasia. The printing and distribution of catalogues in both Australia and New Zealand accounts for the majority of PMP's EBITDA. Catalogues continue to be a key marketing channel and effective media for driving sales for retailers and remains the Company's core activity.

The Group's FY15 results are available on the ASX website (www.asx.com.au). Highlights include:

- Net profit (after tax and significant items) was \$8.0 million, compared to \$3.4 million in the prior corresponding period ("**pcp**");
- Net profit (after tax before significant items) was \$12.1 million up 2.7% pcp;
- Earnings per share¹ is higher year on year at 3.7 cents per share;
- EBITDA (before significant items) at \$58.1 million, up on guidance and 8.4% down pcp;
- EBIT (before significant items) at \$26.4 million was up on guidance of \$25 million to \$26 million and 8.6% lower compared to pcp;
- Free cashflow \$35.5 million in the 2015 fiscal year and \$107 million over the last 3 years;²
- Net debt reduced to \$16.3 million, down by 68% from \$51.7 million at June 2014 and now represents 0.3x leverage;
- Cash interest paid fell \$3.4 million pcp; and
- \$272.0 million in net assets.

¹ Earnings per share is defined as net profit after tax (pre significant items)/weighted average shares.

² Free cashflow is defined as EBITDA (pre significant items) less interest paid, income tax, capex and movement in working capital.
